Inside the Ottawa Citizen

Ottawa: EcoVu selected as a finalist

Ottawa's EcoVu Analytics Inc. has been named as a finalist in Canada's Top Bioproduct, Energy & Environmental Companies Competition for 2006-07. The competition identifies companies that have significant investment potential. It focuses on companies in the areas of alternative energy and environmental solutions. EcoVu has developed technology to help purify water. It and two other firms, Paradigm Environmental Technologies Inc. of Vancouver and Montreal's Sunarc of Canada Inc., will be given the opportunity to showcase their companies at the BioNorth 2006 conference at the end of November.
